## IN OTHER NEWS

**Camp Invention** – In partnership with the National Inventors Hall of Fame, Saint Ann Catholic School is pleased to offer the nationally-acclaimed Camp Invention program to children entering 1st through 6th grades. It's an exciting, weeklong summer adventure with lessons that explore connections between science, technology, engineering and innovation. Children will work together to seek solutions to real-world problems and sharpen critical 21st Century learning skills while rotating through several fascinating modules.

It will run from June 20-24. Activities include: Brainstorming product ideas and building original prototypes using real tools and components found in everyday devices; Exploring the lives of giant insects, colorful animals and their environments; Constructing and personalizing a DIY solar-powered cricket with a unique habitat, Discovering the science of slime, demolition, electronic sound, giant squid and coding. Local educators will facilitate program modules and enthusiastic high school students will serve as leadership interns ensuring that one staff member is in place for every eight children.

Early registration discounts available. Every registration includes a complimentary Camp Invention t-shirt.
